

CANDIDATE PACK

Graduate Technologist

College of Creative Arts and Technologies

UNIVERSITY OF
WESTMINSTER 

OUR UNIVERSITY

Under the inspirational leadership of Professor Peter Bonfield OBE, the University of Westminster is a place where discoveries are made, barriers are broken, diversity is celebrated and where everyone is welcome. Serving more than 21,000 undergraduate, postgraduate, apprentice and executive students, our mission is to transform the lives of young people from all backgrounds. We seek to make the world a more inclusive, sustainable, better and healthier place through our educational, research and knowledge exchange endeavours.

Since our founding in 1838 we have stood out as innovators, committed to tackling social inequalities. In 2021, our University ranked 2nd in England out of more than 100 higher education institutions for social mobility. The ranking - produced by the Institute for Fiscal Studies and the Sutton Trust - compares the number of students from low-income backgrounds at universities, and the extent to which their studies helped them to move up the income ladder. Westminster has the second highest performance among universities in England.

As we focus forward to 2029, we will continue to do so in a way that is true to our progressive, compassionate and responsible values. Our education offer will be more personalised and authentic, giving students from all backgrounds an opportunity of transformative learning, helping them succeed in their studies and professional lives. Our curriculum will be employability-linked, leading to stronger outcomes and helping prepare our graduates for the world of work and for life. Our research and knowledge exchange will enable us to maximise our positive impact on societies in the UK and around the world in an environment where everyone is inspired to succeed. Our priorities of wellbeing, inclusion and sustainable development will help us as we navigate through the challenges and opportunities towards 2029.

OUR PRIORITIES

The University's 2022-2029 strategy, Being Westminster, sets us apart and builds on our unique history and achievements. In our University, we value social justice, moral conscience, inclusivity and equality, acting positively together to make change for good.

The University of Westminster has three priorities.

WELLBEING

Working and studying together at Westminster as a community of students and colleagues is a big part of our lives – doing so in an environment that places our wellbeing front and centre helps us to be safe and feel safe. We care for the safety, health and wellbeing of those around us as well as ourselves.

INCLUSION

All Westminster, colleagues and students are in a supportive and safe learning and working environment which is equitable, diverse and inclusive, is based on mutual respect and trust, and is a place where harassment and discrimination are not tolerated. As a responsible institution, we strive to ensure and to champion equality. As a progressive institution, we take pride in our diversity. As a compassionate institution, we commit to an inclusive culture that allows students and colleagues to reach their full potential.

SUSTAINABLE DEVELOPMENT

We take inspiration from the 17 United Nations' Sustainable Development Goals (SDGs) in how we drive our actions and activities and governance across our University. As a community, we bring together our collective energies to play our part in addressing the climate crisis and inequalities to enable a more sustainable and socially just world. We are one of the top 20 universities in the world in SDG 5 for providing equal access and supporting the academic progression of women. We are one of the top 25 universities in the world in SDG 10 tackling economic, health based and international inequalities. We are in the top 50 universities in SDG 12 for promoting resource and energy efficiency, having a sustainable infrastructure, and providing access to basic services for all.

OUR OBJECTIVES 2022-2029

Against a backdrop of a changing and challenging higher education environment, the University has recently completed a major review of its objectives and strategy, and has published its commitments for the period 2022-29.

EDUCATION

We will offer personalised and authentic education, underpinned by an inclusive curriculum, to enable all our students, from all backgrounds, to engage in transformative learning and to succeed in their studies and professional lives. We will address global, political, and social challenges through a relevant demand-led and forward-looking portfolio. We will do this by offering authentic teaching, learning and assessment modes which immerse students in the wider-world through live projects, work-based learning and global opportunities. We will invest in our people to enable all teaching colleagues to plan and deliver exceptional learning experiences and professional colleagues to offer exceptional support. Students will be empowered by working in partnership with colleagues and fellow students to shape the Westminster experience. We will develop an integrated physical and digital environment that supports excellent practical, active and collaborative learning for all our students.

RESEARCH AND KNOWLEDGE EXCHANGE

Research and knowledge exchange are fundamental to our commitment to making a positive difference to the world and transforming lives. We are committed to research in four priority areas: Diversity and Inclusion; Health Innovation and Wellbeing; Sustainable Cities and the Urban Environment; Arts, Communication and Culture. Our excellence in research and knowledge exchange will infuse our education endeavour, inspiring and equipping our students as agents of change locally as well as globally. We will continue to grow our community of PhD researchers, ensuring that the Westminster postgraduate research experience remains sector leading and the foundation for great careers. In knowledge exchange we will focus on engagement with government, business and with the public and local community. We will achieve more when we identify shared interests and build partnerships with our communities and collaborate for the public good with a clear civic purpose.

EMPLOYABILITY

We will ensure that all our students benefit from employability-led learning and purposeful engagement with employers, business and industry, to give students from every background the best possible preparation for the world of work and enable the best possible employability outcomes. We will do this through the further extension and embedding of programmes such as work-based and placement learning; the Westminster Employability Award; Westminster Working Cultures; mentoring; and student enterprise. Employability-related learning will be a core and critical part of the courses and curriculum we offer, right across the University. It will be front and centre of life at the University for students and colleagues.

A key priority will be the development of a dedicated Centre for Employability and Enterprise at 29 Marylebone Road, intended to transform our student experience and our engagement with business, industry and employers. The Centre will provide a game-changing experience through which undergraduate and postgraduate students from across Westminster will come together and practise enterprise; develop an entrepreneurial mindset and skills; access training, work, projects, business advice and mentoring; and connect directly with employers. The future-focused environment of the Centre will scale up our employability provision, helping our students to be 'fit for the future' in the most challenging of post-pandemic labour markets and economic environments. It will strengthen links between our UK-based and international employer partners and our motivated, bright, work-ready students, affording employers access to a diverse mix of people right for the needs of the contemporary workforce.

GLOBAL ENGAGEMENT

We will raise the international reputation and reach of the University, ensuring that 30% of our undergraduate community and 70% of our taught postgraduates come to us from overseas. Overseas partnerships will remain central to our global engagements. We will prioritise the outward mobility of our students to partner institutions, Contributing to students' development of employability skills and competences. We will extend and deepen our Trans-National Education relationships. These partnerships, particularly that with Westminster International University in Tashkent, will move beyond franchised or validated arrangements to embrace employability, alumni-related research, CPD and knowledge exchange connections.

OUR STRUCTURE

ACADEMIC STRUCTURE

Our structure is built to deliver an enhanced learning environment, stronger and broader industrial, international and professional connections and pioneering and impactful research. The University comprises three Colleges:

Westminster Business School

- School of Organisations, Economy and Society
- School of Finance and Accounting
- School of Applied Management
- School of Management and Marketing

College of Creative Arts and Technologies

- School of Architecture and Cities
- Westminster School of Arts
- School of Computer Science and Engineering
- Westminster School of Media and Communications

Liberal Arts and Sciences

- School of Social Sciences
- Westminster Law School
- School of Humanities
- School of Life Sciences

The University Executive Board comprises:

- Vice Chancellor and President
- Deputy Vice Chancellor (Employability and Global Engagement)
- Deputy Vice Chancellor (Education and Students)
- Deputy Vice Chancellor (Research and Knowledge Exchange)
- Chief Operating Officer and University Secretary
- Three Heads of College

PROFESSIONAL SERVICES

Our Professional Services teams support the effective and professional delivery of our teaching, research and knowledge exchange and the management of student residences and sports facilities.

- Academic Registry
- Business Engagement and Graduate Futures Directorate
- Digital and Technology Services
- Estates
- Finance and Commercial Activities
- Global Engagement
- Global Recruitment, Admissions, Marketing and Communications
- Graduate School
- People, Culture and Wellbeing
- Research and Knowledge Exchange Office
- Strategy, Planning and Performance
- Student and Academic Services
- Learning Innovation and Digital Engagement

JOB DESCRIPTION

Job Title: Graduate Technologist

Reports to: CAT LAB Director

Department: Creative Arts & Technologies

Grade: NG3

ROLE PURPOSE

To support the academic delivery of College activities (teaching, research, workshops, CPD, knowledge exchange and enterprise activities) through the provision of a high quality and user-centred technical service to colleagues, students and external clients / users.

PRINCIPAL ACCOUNTABILITIES

1. To work as a member of the multi-disciplinary CAT LAB team, assisting in the delivery of a range of customer-focused technical services within the College and providing support for the core activities of the College (teaching, research and knowledge exchange) and its users.
2. To supervise access to machines (e.g. Laser Cutters), operate machines on behalf of Lab Users (e.g. Large Format Printers), and serve materials and tools for sale or loan, charging according to Lab rates for materials and machine time.
3. To assist with the training of student Lab Assistants and oversee their provision of a professional and user-centred service to Lab Users.
4. To manage online booking schedules according to standard protocols to ensure optimal use of Lab capacity and resources.
5. To comply with all relevant Health and Safety requirements in the designated technical services area and, under the supervision of more senior colleagues, monitor the safe usage of all equipment and materials by users, escalating any complex Health and Safety concerns to the line manager when necessary.
6. To provide basic demonstration of the safe and correct use of equipment and materials, on both an ad-hoc basis and during scheduled practical sessions throughout the year, maintaining appropriate records that this demonstration has taken place.
7. To provide technical support for the safe and productive use of the CAT LAB and for the preparation of workshops and training classes throughout the calendar year. Such technical support includes (but is not limited to):
 - Over-seeing the safe and correct use of tools by appropriately trained students and colleagues, providing additional ad hoc support and advice about safe and best practice as required;
 - Supporting specific fabrication techniques and software skills relevant to the post-holder's specialisms;
 - Assisting users in the production of both development and presentation quality work in a variety of materials,

and advising users on potential manufacturing and materials considerations;

- Assisting in the preparation and mounting of internal/external exhibitions and events to showcase work and projects produced in the Lab.
8. To assist in keeping the designated technical service area in a clean, safe and fully operational condition. To assist, as a member of the Lab team, in the regular inspection and basic maintenance of equipment in the designated technical service area, to ensure that it conforms to required Health and Safety standards.
 9. To maintain an inventory of stock/materials in the designated technical services area, working with the CAT LAB team in a timely manner in order to maintain optimum levels at all times throughout the year. To take responsibility for charging for materials and machine time in accordance with pre-agreed and published tariffs.
 10. To participate in and contribute to team meetings. To undertake relevant continuous professional development activities to maintain up to date knowledge and skills in the designated specialism.
 11. To undertake any other duties within their competence and appropriate to the grade, as required by the line manager or their nominee.

CONTEXT

The Creative and Advanced Technologies Lab (CAT LAB) is the University of Westminster's campus-wide facility for creative and advanced technology, based at the Marylebone Campus. Over more than a decade it has grown from a single fabrication workshop into a comprehensive, integrated ecosystem of more than fifty technologies across some 2,000 m², serving students and colleagues from every school. It is dedicated to teaching, research, knowledge exchange and enterprise, and offers an excellent working environment.

The Lab spans the full spectrum of creative and advanced technology. Alongside traditional machine shops for wood and metal and a casting studio, it offers a wide range of digital fabrication tools, from 3D printers through CNC mills and routers to multi-axis robotic arms, together with equipment for material and structural testing. It encompasses digital capture, representation and printing, from 3D scanners to a photographic studio. It has an extensive virtual, augmented and mixed reality capability, a new Virtual Production Studio, and, as its new flagship, the Immersive Experience Lab (IEL): a world-class immersive facility comprising a large direct-view LED volume, multi-channel audio and a sensor network, operating as a single system.

The Lab is academic-led and user-centred. Its emphasis is on empowering students and colleagues to use the technologies for themselves, so that Lab Users can create their own work and become self-directed, responsible makers. The principal role of Lab colleagues is therefore to instruct and support others in their learning, to develop new teaching materials and processes, and to oversee and encourage users' own work, rather than to produce it for them. Access is supervised, and given the hazardous nature of some processes, the Lab maintains high standards of safety and professional practice at all times.

Given the diverse nature of its facilities and activities, the Lab relies on a multi-disciplinary team of academic, research and technical colleagues, working alongside a large number of trained student Lab Assistants. It requires colleagues with a wide range of skills and a keen interest in working with others to share knowledge, support current activities, and develop new and innovative uses for the Lab as its potential continues to expand.

The post-holder is expected to work closely with colleagues within and beyond the team to maintain the highest quality of technical support and to provide the best possible experience to Lab Users. The post-holder will adopt a user-centred approach and a commitment to continuous professional development. The University requires all post-holders to understand their individual health and safety responsibilities and to be aware of the risks in the work environment and their potential impact on themselves and others.

DIMENSIONS

The post-holder has no line management or budgetary responsibility but works as part of a multi-disciplinary team of technical, academic and research colleagues and trained student Lab Assistants in supporting the core activities of the College.

The post-holder is a user of the equipment and physical resources in the designated technical service area.

There may be restrictions on taking annual leave during busy periods and during term time.

PERSON SPECIFICATION

QUALIFICATIONS

Essential

Educated to degree level in a subject area relevant to the CAT LAB (e.g. architecture, design, creative computing, games, or a related creative-technology discipline), or demonstrable equivalent level of professional experience.

TRAINING AND EXPERIENCE

Essential

Experience of a Lab / workshop environment and knowledge of and skills for working with a variety of materials and software using sophisticated and contemporary equipment.

Awareness of health and safety legislation, requirements and best practice in the context of a Lab environment or similar.

Experience of working successfully as a member of a customer-facing team of colleagues.

Desirable

Previous experience in a Higher Education or commercial environment.

Experience of demonstrating equipment to groups.

Knowledge of Rhinoceros 3D, RhinoCAM.

Knowledge of Adobe InDesign, Lightroom, Da Vinci Resolve.

Knowledge of Blender, Twin Motion, Unreal Engine.

APTITUDES, ABILITIES AND PERSONAL ATTRIBUTES

Essential

Excellent IT skills including word processing and spreadsheets.

Excellent interpersonal skills, with the ability to communicate information effectively (verbally or in writing) and to articulate complex issues clearly and concisely.

Excellent planning skills, with attention to detail and the ability to meet deadlines and work well under time constraints and other pressures.

Ability to work both independently and in a team environment.

A customer-focused approach, and the ability to demonstrate this approach in personal working practices.

A commitment to continuous personal professional development.

The flexibility to adapt in an ever-changing sector.

Fully committed to contributing to a stimulating learning and working environment, which is supportive and fair, based on mutual respect and trust, and in which harassment and discrimination are neither tolerated nor acceptable.

HOW TO APPLY

To apply for this vacancy, please visit our [vacancies page](#) where you will be able to register as a candidate and complete your online application.

You will be requested to upload a CV which will be used to populate relevant sections of your application. You will also be requested to complete a concise statement in support (ideally no longer than 1000 words), addressing the criteria in the Person Specification and your motivation for applying.

The deadline for receipt of applications is 11.59pm on 16 August 2026.

Interviews will take place during w/c 17 or 24 August 2026.

An appointment will be made subject to proof of eligibility to work in the UK and satisfactory references being obtained.

At the University of Westminster, diversity, inclusion and equality of opportunity are at the core of how we engage with students, colleagues, applicants, visitors and all our stakeholders.

We are fully committed to enabling a supportive and safe learning and working environment which is equitable, diverse and inclusive, is based on mutual respect and trust, and in which harassment and discrimination are neither tolerated nor acceptable.

The University has adopted Smart Working principles to support and further our Equality, Diversity and Inclusion aims of being an inclusive, collaborative and flexible employer. Further details of Smart Working can be discussed at interview stage.

OUR BENEFITS

The University offers a range of wellbeing and work-life balance benefits to recognise and reward the essential contribution our colleagues make to success and growth. Our benefits are inclusive for colleagues of all backgrounds including LGBTQ+ colleagues, disabled colleagues, pregnant colleagues, parents and carers, as well as colleagues of all genders, age, ethnicities, nationalities, religion and beliefs, and marriage and civil partnership status.

- 35 days annual leave per year, plus bank/national holidays and University of Westminster closure days (pro-rata for part-time staff).
- A generous occupational pension scheme.
- Annual incremental progression and/or cost of living reviews.
- Generous maternity, paternity and adoption leave.
- Flexible working and smart working.
- Learning and development opportunities.
- Free membership rates for a wide range of sporting facilities, including gyms at Regent Street and Harrow campuses, as well as the Chiswick Sports Ground.
- Employee assistance programme.
- The opportunity to participate in other attractive employee benefit schemes such as Cycle to Work, Eye Care Vouchers, Season Ticket Loans, and Give As You Earn.
